I am a British software developer currently living in Somerset, England.

I always want to create honest, well-designed bespoke applications, websites and emails. I use a variety of tools, frameworks and languages to achieve this goal. Attention to detail and forward-thinking are my specialities.

## **Software Engineer, Intelligence Fusion. 2021**

Intelligence Fusion provide threat-intelligence for public and private sector organisations. Currently, I am working on improving and increasing their API offering with new features and enhancements.

## **Web Developer, Think Productive. 2020-2021**

I rebuilt the customer-facing websites for all of Think Productive's global regions. I also created a bespoke, asynchronous learning platform for customers to use after having attended live sessions.

## **Web Developer, Opia. 2016-2017, 2018-2020**

I created websites and email marketing campaigns to incentivise customers to buy from some of the world's leading technology brands including Google, LG, Microsoft, HP, Dell, Samsung and many more.
