Kerri Sharp

Email hello@kerrisharp.com **Website** kerrisharp.com

I am a British software developer currently living in Somerset, England. In my career, I always want to create honest, well-designed bespoke applications, websites and emails. I use a variety of tools, frameworks and languages to achieve this goal. Attention to detail and forward-thinking are my specialities.

Experience

Software Engineer, Intelligence Fusion. 2021–Present

Intelligence Fusion provides threat-intelligence for public and private sector organisations. Currently, I am building an exciting new web application which will expand our services into new domain areas. Previously, I was working on improving and increasing our API offering with new features and enhancements.

Web Developer, Think Productive. 2020–2021

I rebuilt the customer-facing websites for all of Think Productive's global regions. I also created a bespoke, asynchronous learning platform for customers to continue their learning after having attended live sessions.

Web Developer, Opia. 2016–2020

I created websites and email marketing campaigns to incentivise customers to buy from some of the world's leading technology brands including Google, LG, Microsoft, HP, Dell, Samsung and many more.

Skills

PHP, Object-oriented programming, HTML5, JavaScript, REST APIs, CSS/SASS, Tailwind, PostgreSQL, React.js, Next.js, TypeScript, Vue.js, WordPress, PHPUnit, Docker, Git, MySQL
